---

**Programa Arqueológica Huanchaco**, Universidad Nacional de Trujillo, Perú *July 2017 – Present*  
Project Bioarchaeologist, Field Supervisor  
As made possible through the Fulbright Research Grant and subsequent fieldwork associated with the doctoral degree, conducted over 10 months of laboratory analysis of human remains. Investigations contributed to knowledge concerning the lived experience of ancient maritime communities on the North Coast of Peru.

**Minaspata Archaeological Project**, Cusco, Perú *June 2015 – August 2015*  
Bioarchaeologist and Zooarchaeologist

**University Scholars Program**, University of Pennsylvania *December 2013 – May 2016*  
*Research project: Epigenetic Traits, Computerized Tomography, and Native American Identity*  
[<http://www.upenn.edu/curf/uscholars/>] Skills: Data collection, database management, medical CT scan analysis, OsiriX. Funding received for the Summer 2014 (\$5,000) and Summer 2015 (\$5,000) terms to conduct independent research.

**College House Research Fellow**, University of Pennsylvania *January 2014 – May 2015*  
*Research project: Epigenetic Traits, Computerized Tomography, and Native American Identity*  
[<http://www.collegehouses.upenn.edu/life/chrf>] Skills: Data collection, database management, medical CT scan analysis, OsiriX. 2014-2015 appointment.

**REACH Program**, Hope College, Holland, MI *June 2011 – July 2011*  
Student Researcher in Organic Chemistry, Research Experience Across Cultures at Hope  
*Project: Analysis of Enzymes for Chemoselective Ester Hydrolysis.*  
Worked independently in a full organic chemistry lab, conducted Nuclear Magnetic Resonance (NMR) scans, and interpreted results. Final project presented at poster session.

## Field Experience

---

**Archeology and Traditional Cultures of Latin America**, University of Florida *July 2022*

Assistant Field Director

Supervised 4 weeks of archaeological excavation with 17 undergraduate students. Served as unit director, supervised all students after-hours, and aided in coordination of health and safety in Peru.

**Proyecto Arqueologo de Huanchaco**, Universidad Nacional de Trujillo *June 2019 – July 2019*

Bioarchaeology Consultant, Field School Supervisor

Completed 8 weeks of excavation, instructed 14 field school students from US institutions.

**Proyecto de Investigación Arqueológica de Complejo Lambayeque, Sicán** *January 2019 – February 2019*

Project Bioarchaeologist

Supervised the excavation of 19 individuals during a 7-week field season from the Huacas de Sicán.

Completed laboratory analysis of all individuals recovered during the field season. Produced a 155-page, non-peer reviewed bioarchaeological report detailing analysis of the remains excavated.

**Proyecto Arqueologo de Huanchaco**, Universidad Nacional de Trujillo *July 2017 – April 2018*

Bioarchaeology Consultant, Field Supervisor

Conducted over 11-weeks of excavating human remains. Supervised and instructed 15 Peruvian archaeology students in excavation and basic analysis of human remains.

**Proyecto de Investigación Arqueológica de Complejo Lambayeque, Sicán** *October 2017*

Bioarchaeology Consultant

Supervised the excavation of human remains of two burial contexts, and a third sacrificial burial context with a minimum of seven individuals from the Huacas de Sicán. Produced a 49-page, non-peer reviewed bioarchaeological report detailing analysis of the remains excavated.

**Smith Creek Archaeology Project**, Woodville, MS *May 2015 – June 2015*

Student Researcher and Excavator

Excavation for one field season, investigating the construction and use of mounds in the pre-historic Coles Creek Native American culture. Skills: excavation, soil profile drawing and photography, survey, coring, flotation sampling, water screening, wall mapping, soil analysis, and artefact analysis.

## Museum Experience

---

**Smithsonian National Museum of Natural History**, Washington DC *January 2017 – June 2017*

Contractor to Dr. Douglas Owsley, Physical Anthropology

Prepared individuals from 28 sites on loan from the Nebraska State Historical Society to be returned.

Produced a 187-page, non-peer reviewed bioarchaeological burial report completed by myself, Dr. Douglas Owsley, and Karin S. Bruwelheide from both edited and new analyses.

**Smithsonian National Museum of Natural History**, Washington DC *June 2016 – December 2016*

Intern to Dr. Douglas Owsley, Physical Anthropology

Conducted independently driven research on Arsenic and its presence in the bioarchaeological record.

Maintained and corrected Human Skeletal Database with 13,000+ historic and archaeological remains.

Completed analysis of isotope samples from historic archaeological sites. Aided in analysis and report generations of 19th century cast-iron coffins. Used site reports and artifact inventories to assist in the selection of faunal bone isotope samples. Edited publications for volume on the Colonial Chesapeake

### *Museum Experience, continued*

#### **Penn Museum of Archaeology and Anthropology**, Philadelphia, PA

Curatorial Assistant, Physical Anthropology Section

*November 2012 – May 2016*

Fulfilled curatorial duties in the absence of curator. Utilized human osteological analysis and analysis of primate remains. Managed 10,000+ human remains, including upkeep, organization and database management. Collaborated with other museum departments for public outreach. Skills: bone and artefact photography, medical CT scan analysis (including OsiriX), Micro CT certification and osteological data collection.

Student Archival Researcher, NAGPRA Section

*January 2015 – May 2016*

Extensive archival research and analysis of excavation records to complete reports on Native American remains for the Native American Graves Protection and Repatriation Act (NAGPRA) Coordinator. Wrote federal repatriation notices. Engaged in cross-departmental collaboration to ensure timely repatriation.
